TULIP FOR EDUCATION

Digital
and perfect
for training!

HIGHLIGHTS

- + **Digital training:** App-based manufacturing and assembly instructions
- + **Improved learning effect:** Interactive training process with machine feedback
- + **No-code:** Easily create fully functional apps with no prior programming knowledge
- + **Human-centric:** User-friendly apps to increase productivity
- + **App templates:** Create new apps or use easily modifiable templates
- + **Analyses:** Available in real time

TULIP for training and workshops

„Build your own App“

How can you teach digitization? With **TULIP**, a completely new software and hardware platform that is ideal to use for training purposes. This means that **conventional operating and work instructions** can be quickly and easily **replaced by interactive apps**. Man and machine can communicate and training sequences are able to be made more independent, safe and efficient.

A product **package specifically designed for education** includes software licenses for 24 months, a ready-to-use app library and a service package for training and individual app creation. Moreover, our **TULIP Workstation** enables training for **digitally guided and monitored assembly processes**. Analyses of the assembly progress can be easily visualized and used to **sensitize future managers** to take into considerations key figures at an early stage. **Keep it simple!** The software has been designed to be human-centric. Thanks to the **no-code programming**, pupils and students can quickly and independently create apps and achieve the first feeling of success.

TULIP FOR EDUCATION – Product overview

TULIP EDUCATION BUNDLE

- + TULIP license for 24 months with 10 or 25 stations
- + Access to the learning platform for 3 teachers
- + 2 days on-site setup, 3 days custom app creation (online)
- + App library

TULIP WORKSTATION

- + Immediately available assembly station
- + High quality aluminum case
- + I/O devices included
- + Tablet (optional)

MEASURING KIT

- + Digital caliper
- + Digital indicator
- + Transmitter with mini USB connector
- + 8 channel receiver

Other devices on request

TULIP EDUCATION LICENSE EXTENSION + 12 MONTHS

TULIP FOR EDUCATION

TULIP is the ideal platform for teaching training content in the digital learning factory. Our students can perfectly apply their theoretical knowledge in our industry-oriented smart factory and are optimally qualified for their tasks in the Industry 4.0.
